

3M Fire Protection Products
3M™ Fire Barrier Sealant FD 150+

Versatile Easy-to-Use Flexible Firestop

Available in three (3) colors:

Red Limestone Blue

A low-cost, flexible firestop for metal pipe, cable penetrations and top-of-wall applications.

3M™ Fire Barrier Sealant FD 150+ is an economical alternative to firestopping applications. It is used to firestop metal pipes or cables through concrete or gypsum, and for use in dynamic head-of-wall systems. A single-part, sag-resistant, water-based acrylic latex sealant, 3M Fire Barrier Sealant FD 150+ has excellent adhesion characteristics to most common construction materials. And, since it dries to the touch within one hour, it can be painted for a more professional-looking job.
